Grilled Teriyaki Steaks with Fruit Salsa

4 boneless beef chuck eye or chuck top blade steaks, cut $\frac{3}{4}$ " thick (approx. 1-1/4 pounds)
1/3 cup plus 2 tablespoons teriyaki marinade, divided

Fruit Salsa:

2 medium plums or 1 large peach, pitted, diced
2 tablespoons orange marmalade
2 tablespoons finely chopped red onion
1 tablespoon lime juice
2 teaspoons finely chopped jalapeño pepper

Trim fat from beef steaks. Place steaks and 1/3 cup marinade in plastic bag; close bag securely, turning to coat. Marinate in refrigerator 30 minutes,

turning once. Meanwhile in small bowl, combine salsa ingredients; mix well. Set aside. Remove steaks from marinade; discard marinade. Place steaks on grid over medium, ash-covered coals. Grill chuck eye steaks, uncovered, 14 to 20 minutes (top blade 18 to 22 minutes) for medium-rare to medium doneness, turning occasionally. Drizzle steaks with additional 2 tablespoons marinade; serve with salsa.

Blueberry Crumble

3 cups fresh or frozen blueberries
3 tablespoons sugar
1 tablespoon cornstarch
1/3 cup old-fashioned oats
1/3 cup packed brown sugar
3 tablespoons all-purpose flour
2 tablespoons chopped almonds
1/8 teaspoon ground cinnamon
3 tablespoons cold butter
Vanilla ice cream

In a greased 9-inch microwave-safe pie plate, combine the blueberries, sugar and cornstarch. Cover and microwave on high for 7-8 minutes or until thickened, stirring twice. Meanwhile, in a small bowl,

combine the oats, brown sugar, flour, almonds, and cinnamon. Cut in butter until mixture resembles coarse crumbs. Sprinkle over blueberry mixture. Microwave, uncovered, on high for 2-3 minutes or until butter is melted. Serve with ice cream.

Tips to help you save \$ and energy

- ▶ Have your HVAC system serviced once per year by a NATE-certified technician.
- ▶ Run ceiling paddle fans on medium, blowing down in summer.
- ▶ Always run your HVAC system fan on "AUTO." Running it on "ON" uses more electricity and can decrease your air conditioner's ability to remove moisture.
- ▶ Monitor your home's relative humidity in the summer. If it consistently stays in the 60-percent range or higher, ask your HVAC technician about lowering your central air conditioning unit's indoor fan speed.

Safety Tip

- ▶ Keep all appliances away from water, including hair dryers, electric toothbrushes and curling irons
- ▶ Don't overload outlets
- ▶ Never unplug or carry any appliance by its cord
- ▶ Don't run cords under carpet or furniture, as the cords can overheat and cause a fire
- ▶ Unplug appliances before cleaning them
- ▶ Inspect all appliances, including power tools, for frayed cords, broken plugs and cracked or broken housing, then replace the damaged equipment or have it repaired by an authorized repair center

HOLIDAY CLOSING NOTE:

BEMC offices will be closed Monday, May 25 in observance of Memorial Day.

CONVENIENT BILL PAYMENT WITH YOUR CREDIT CARD!
